Village of Montgomery
Montgomery, IL 60538

The Comprehensive Annual Financial Report (CAFR) of the Village of Montgomery, Illinois for the fiscal year ended April 30, 2012 is submitted herewith. This report provides a broad view of the Village's financial activities for the 2012 fiscal year and its financial position at April 30, 2012. Although addressed to the elected officials and the citizens of the Village, this report has a number of other users. Foremost among these other users are bondholders of the Village, financial institutions, credit rating agencies, educational institutions, and other governmental entities.

Responsibility for both the accuracy of the information presented in the CAFR as well as the completeness and fairness of the presentation, including all disclosures, rests with the Village. We believe that the information, as presented, is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position of the Village and the results of its operations; and that all disclosures necessary to enable the reader to gain maximum understanding of the Village's financial affairs have been included.

To provide a reasonable basis for making these representations, the Village has established a comprehensive set of internal controls that are designed to protect the Village's assets from loss, theft or misuse. These internal controls are also used to compile sufficient, reliable information for the preparation of the Village's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Village's framework of internal controls has been designed to provide reasonable, rather that absolute, assurance that the financial statements will be free from material misstatements.

Illinois statutes require that Illinois municipalities publish financial statements on an annual basis that are prepared in accordance with generally accepted accounting principles (GAAP) and are audited by independent accountants. The Village's financial statements have been audited by Sikich LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Village of Montgomery for the year ended April 30, 2012, are free of material misstatements. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures

200 N. River Street • Montgomery, IL 60538 • 630-896-8080 • Fax 630-896-0791
www.ci.montgomery.il.us

in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluation of the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the Village's financial statements for the year ended April 30, 2012, are presented fairly in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The financial section also includes management's discussion and analysis, which should be read in conjunction with this letter to obtain the most complete assessment of the Village's current financial position and its future prospects.

Profile of the Village

The Village is located in the Fox River Valley in northern Illinois covering an 8 square mile area in southern Kane County and northern Kendall County. Located immediately south of the City of Aurora, the Village is 6 miles west of Naperville, 18 miles northwest of the City of Joliet, and 43 miles west of the City of Chicago "loop" business district. The Fox River runs through the center of the Village.

The decennial census completed in 2010 reported the Village's population at 18,438.

One of the original settlers of the Village, Daniel Gray, drew the name Montgomery from Montgomery County, New York. The Village was founded in 1835 and was incorporated as a Village in 1858. It is a non-home rule municipality.

The Village is governed by a Village President and six Trustees. All are elected at large to staggered four-year terms. The Village Clerk is also elected to a four year term. The Village employs a full time professional Village Administrator along with highly trained and experienced department heads. Major areas of operation include the police department (with 24-hour 911 emergency dispatching), a community development department, a fully staffed public works/water department and other professional support staff. The Village is also served by five fire protection districts, five school districts, two library districts, two park districts and a water reclamation (sanitary sewer) district.

Water supply and distribution services are provided by the Village to a service area of 26,000, which includes an unincorporated subdivision with a population of approximately 9,000. Sanitary sewerage treatment is provided by the Fox Metro Water Reclamation District, whose treatment plant is located near the Village.

Accounting System and Budgetary Control

The accounts of the Village are organized on the basis of funds, each of which is considered a separate and distinct accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balances/net assets, revenues and expenditures/expenses. Revenues

are allocated to, and accounted for, in individual funds based upon the purpose for which they are to be expended and the means by which spending activities are controlled. The accounting records for general governmental operations are maintained on the modified accrual basis, with revenues being recorded when available and measurable and expenditures being recorded when materials or services are received and the liability incurred. Accounting records for the Village's enterprise and internal service funds are maintained on the accrual basis of accounting.

The annual budget serves as the foundation for the Village's financial planning and control. All departments of the Village are required to submit their budget requests to the Finance Director in December of each year. These requests are compiled into a comprehensive budget document which is presented to the Village Administrator. The Village Administrator uses these requests as the starting point for developing a proposed budget. The proposed budget is then presented to the Village Board in February of each year. The Village Board is required to hold a public hearing on the proposed budget and to adopt a final budget no later than April 30th of each year, which is the close of the Village's previous fiscal year. The appropriated budget is prepared by fund, department and program.

Factors Affecting Financial Condition

Understanding the external environment in which the Village operates is an important precursor to understanding the financial statements. Municipal officials, and other interested parties, must analyze and understand changing social, demographic, economic, and financial environments in order to assess the Village's present and future viability. A grasp of the Village's environment is necessary before the financial statements of the Village can be adequately analyzed.

Local Economy. Building permits increased over the prior fiscal year for the second year in a row as the Village sees construction activity begin to build again. Sales tax revenues reached a new high for a 12-month period, increasing 3.6% over the prior year.

Budget Challenges. Recent years' budget processes have faced the many challenges presented by the current local, state and national economies, including: state-shared revenue reductions; increasing costs of health care; and increasing costs of liability and property insurance.

The Village looked to both new, or increased, revenue sources and expenditure reductions to maintain a balanced budget. A new water rate structure was also put into place to ensure that the Village is recovering the full cost of providing services.

Long-Term Financial Planning. Maintenance and expansion of the Village's infrastructure (such as streets, curbs, sidewalks, bridges and traffic signals) remain a

major priority of the Village. The Village annually adopts a ten-year Capital Improvement Program that provides a framework for the development and maintenance of infrastructure to meet current and future needs.

Cash Management. Cash temporarily idle during the year was invested in demand deposits or certificates of deposit in accordance with the Village's investment policy. The policy prioritizes the following goals: (1) safeguard investments, (2) provide for cash flow requirements and (3) maintain a competitive yield on the portfolio.

Awards and Acknowledgements

The Government Finance Officers' Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Village of Montgomery, Illinois, for its year ended April 30, 2011. This was the 9th consecutive year that the Village has received this prestigious award. In order to be awarded the Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such reports must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

The preparation of this report on a timely basis could not have been accomplished without the services of the entire Finance Department and the auditors. We would like to express our appreciation to all those who assisted and contributed to its preparation accordingly. We would also like to thank the Village President and Board of Trustees for their direction and support in planning and overseeing the financial operations of the Village.

INDEPENDENT AUDITOR'S REPORT

The Honorable President
Members of the Board of Trustees
Village of Montgomery
Montgomery, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Montgomery, Illinois (the Village) as of and for the year ended April 30, 2012, which collectively comprise the Village's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Village's management. Our responsibility is to express opinions on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Montgomery, Illinois as of April 30, 2012, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 22, 2012, on our consideration of the Village of Montgomery, Illinois' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, actuarial information and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The combining and individual fund financial statements and schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Aurora, Illinois
August 22, 2012

GENERAL PURPOSE EXTERNAL FINANCIAL STATEMENTS

These general purpose external financial statements provide a summary overview of the financial position of all funds as well as the operating results of all funds. They also serve as an introduction to the more detailed statements and schedules that follow in the next subsection.

VILLAGE OF MONTGOMERY, ILLINOIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

APRIL 30, 2012

The Village of Montgomery (the "Village") discussion and analysis is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the Village's financial activity, (3) identify changes in the Village's financial position (its ability to address the next and subsequent year challenges), (4) identify any material deviations from the financial plan (the approved budget), and (5) identify individual fund issues or concerns.

Since the Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the Transmittal Letter (beginning on page iv) and the Village's financial statements (beginning on page 3).

Financial Highlights

- The Village's net assets increased by $2,605,065 (or 3.3%) during the fiscal year ending April 30, 2012 (FY12).
- The governmental activities net assets increased by $2,023,050 (3.96%) from fiscal year 2011 to $53,026,079.
- The business-type activities increased by $582,015 (2.0%) from fiscal year 2011 to $29,098,760.
- The Village reported a combined fund balance of the governmental funds of $6,349,358, an increase of $201,173 (3.3%) from fiscal year 2011.
- The total expenses of all governmental activity programs increased by $222,119 (1.8%).
- The Village's general fund actual revenues were over the budgeted amounts by $347,926 (4.0%) and the actual expenditures were under the budgeted amounts by $9,439.

USING THE FINANCIAL SECTION OF THIS COMPREHENSIVE ANNUAL REPORT

The financial statements' focus is on both the Village as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government) and enhance the Village's accountability. The Village's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements (see pages 3-5) are designed to be corporate-like in that all governmental and business-type activities are consolidated into columns, which add to a total for the Primary Government. The focus of the Statement of Net Assets (the "Unrestricted Net Assets") is designed to be similar to bottom line results for the Village and its governmental and business-type activities. This statement combines and consolidates governmental funds' current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting and economic resources measurement focus.

The Statement of Activities (see pages 4-5) is focused on both the gross and net cost of various activities (including governmental and business-type), which are supported by the government's general taxes and other resources. This is intended to summarize and simplify the user's analysis of the cost of various governmental services and/or subsidy to various business-type activities.

The Governmental Activities reflect the Village's basic services, including police, public works, community development and administration. Shared state sales, local property and shared state income taxes finance the majority of these services. The Business-type Activities reflect private sector type operations (Water), where the fee for service typically covers all or most of the cost of operation, including depreciation.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Fund Financial Statements allows the demonstration of sources and uses and budgeting compliance associated therewith. Traditional users of governmental financial statements will find the Fund Financial Statements presentation more familiar. The focus is on Major Funds, rather than fund types.

Governmental Funds

The Governmental Major Fund (see pages 6-9) presentation is presented on a sources and uses of liquid resources basis. This is the manner in which the financial plan (the budget) is developed. The flow and availability of liquid resources is a clear and appropriate focus of any analysis of a government. The focus of governmental funds is narrower than that of the Government-wide Financial Statements. The Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate the comparison between Governmental Funds and Governmental Activities. The Governmental Major Funds total column requires reconciliation because of the different measurement focus (current financial resources versus total economic resources), which is reflected on the page following each statement (see pages 7 and 9). The flow of current financial resources will reflect bond proceeds and interfund transfers as other financial sources as well as

capital expenditures and bond principal payments as expenditures. The reconciliation will eliminate these transactions and incorporate the capital assets and long-term obligations (bonds and others) into the Governmental Activities column (in the Government-wide statements).

Proprietary Funds

The Business-type Activities column on the Proprietary Fund Financial Statements (see pages 10-13) is the same as the Business-type column on the Government-wide Financial Statement. Proprietary funds account for services that are generally fully supported by user fees charged to customers. These funds are presented on a total economic resources basis. The Village has only one business-type proprietary fund, which is the Water Fund, which is presented in a separate column in the Fund Financial Statements.

Fiduciary Funds

The Fund Financial Statements also allow the government to address its Fiduciary Fund (Police Pension, see pages 14-15). While this fund represents trust responsibilities of the government, these assets are restricted in purpose and do not represent discretionary assets of the government. Therefore, these assets are not presented as part of the Government-wide Financial Statements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-wide and Fund Financial Statements. The Notes to the Financial Statements can be found on pages 16-45 of this report.

Infrastructure Assets

Historically, a government's largest group of assets (infrastructure assets – i.e. roads, stormsewers, etc.) have not been reported nor depreciated in governmental financial statements. GASB Statement No. 34 requires that these assets be valued and reported within the Governmental Activities column of the Government-wide Statements. However, as a phase III government, the Village only records infrastructure assets on a prospective basis as the infrastructure is acquired or reconstructed. Additionally, the government must elect to either (1) depreciate these assets over their estimated useful life or (2) develop a system of asset management designed to maintain the service delivery potential to near perpetuity. If the government develops the asset management system (the modified approach) which periodically (at least every third year), by category, measures and demonstrates its maintenance of locally established levels of service standards, the government may record its cost of maintenance in lieu of depreciation. The Village has chosen to depreciate assets over their useful life. If a road project is considered maintenance – a recurring cost that does not extend the road's original useful life or expand its capacity – the cost of the project will be expensed. An "overlay" of a road will be considered maintenance whereas a "rebuild" of a road will be capitalized.

GOVERNMENT-WIDE STATEMENTS

Statement of Net Assets

Net assets may serve over time as a useful indicator of a government's financial position. The Village of Montgomery's assets exceeded liabilities by $82,124,839at the end of the most recent fiscal year.

By far, the largest portion of the Village's net assets (90.7%) reflects its investment in capital assets, less any related debt still outstanding. Although the Village of Montgomery's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The following table reflects the condensed Statement of Net Assets:

Village of Montgomery
Statement of Net Assets as of April 30, 2012 & 2011

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2012	**2011**	**2012**	**2011**	**2012**	**2011**
Assets						
Current and Other Assets	$12,013,178	$11,267,809	$3,155,123	$2,223,734	$15,168,301	$13,491,543
Capital Assets	60,593,164	59,969,223	34,339,596	29,949,318	94,932,760	89,918,541
Total Assets	$72,606,342	$71,237,032	$37,494,719	$32,173,052	$110,101,061	$103,410,084
Liabilities						
Current Liabilities	$5,607,024	$5,219,378	$1,243,422	$268,231	$6,850,446	$5,487,609
Long-Term Liabilities	13,973,239	15,014,625	7,152,537	3,388,076	21,125,776	18,402,701
Total Liabilities	$19,580,263	$20,234,003	$8,395,959	$3,656,307	$27,976,222	$23,890,310
Net Assets						
Invested in Capital Assets, Net of Debt	$47,292,952	$45,586,500	$27,255,898	$26,651,346	$74,548,850	$72,237,846
Restricted	3,313,822	3,226,346	0	0	3,313,822	3,226,346
Unrestricted	2,419,305	2,190,183	1,842,862	1,865,399	4,262,167	4,055,582
Total Net Assets	$53,026,079	$51,003,029	$29,098,760	$28,516,745	$82,124,839	$79,519,774

An additional portion of the Village of Montgomery's net assets (4.0%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets ($4,262,167) may be used to meet the government's ongoing obligations to citizens and creditors.

For more detailed information, see the Statement of Net Assets (page 3).

Normal Impacts

There are six basic (normal) transactions that will affect the comparability of the Statement of Net Assets summary presentation.

Net Results of Activities – which will impact (increase/decrease) current assets and unrestricted net assets.

Borrowing for Capital – which will increase current assets and long-term debt.

Spending Borrowed Proceeds on New Capital – which will reduce current assets and increase capital assets. There is a second impact, an increase in invested in capital assets and an increase in related net debt which will not change the invested in capital assets, net of debt.

Spending of Non-Borrowed Current Assets on New Capital – which will (a) reduce current assets and increase capital assets and will (b) reduce unrestricted net assets and increase invested in capital assets, net of debt.

Principal Payment on Debt – which will (a) reduce current assets and reduce long-term debt and (b) will reduce unrestricted net assets and increase invested in capital assets, net of debt.

Reduction of Capital Assets through Depreciation – which will reduce capital assets and invested in capital assets, net of debt.

Current Year Impacts

At the end of the fiscal year, the Village of Montgomery is able to report positive balances in the government as a whole, as well as for its separate governmental activities and business-type activities.

The primary government's net assets increased by $2,605,065during the current fiscal year. The increase is primarily the result of the acceptance of major infrastructure improvements from developers during FY12. The current year total revenues over total expenses is positive, with total revenues decreasing and expenses increasing from the prior year.

Changes in Net Assets

The following chart shows the revenue and expenses of the Village's activities:

Village of Montgomery
Changes in Net Assets for the Fiscal Year Ended April 30, 2012 & 2011

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2012	2011	2012	2011	2012	2011
Revenues						
Program Revenues						
Charges for Services	$2,482,903	$3,280,627	$3,614,159	$3,532,425	$6,097,062	$6,813,052

Normal Impacts

There are eight basic impacts on revenues and expenses as reflected below:

Revenues:

Economic Condition – which can reflect a declining, stable or growing economic environment and has a substantial impact on state income, sales and utility tax revenue as well as public spending habits for building permits, elective user fees and volumes of consumption.

Increase/Decrease in Village-approved Rates – while certain tax rates are set by statute, the Village Board has significant authority to impose and periodically increase/decrease rates (water, impact fee, building fees, etc.).

Changing Patterns in Intergovernmental and Grant Revenue (both recurring and non-recurring) – certain recurring revenues (state-shared revenues, etc.) may experience significant changes periodically while non-recurring (or one-time) grants are less predictable and often distorting in their impact on year-to-year comparisons.

Market Impacts on Investment Income – fluctuating market rates and the amount of investible funds held by the Village will result in changes in income levels.

Expenses:

Introduction of New Programs – within the functional expense categories (public safety, highways and streets, general government, etc.) individual programs may be added or deleted to meet changing community needs.

Increase in Authorized Personnel – changes in service demand may cause the Village Board to increase/decrease authorized staffing. Staffing costs (salary and related benefits) represent the majority of the Village's operating costs.

Salary Increases (annual adjustments and merit) – the ability to attract and retain human and intellectual resources requires the Village to strive to approach a competitive salary range position in the marketplace.

Inflation – while overall inflation appears to be reasonably modest, the Village is a major consumer of certain commodities such as supplies, fuels and parts. Some functions may experience unusual commodity-specific increases.

Current Year Impacts

Governmental Activities

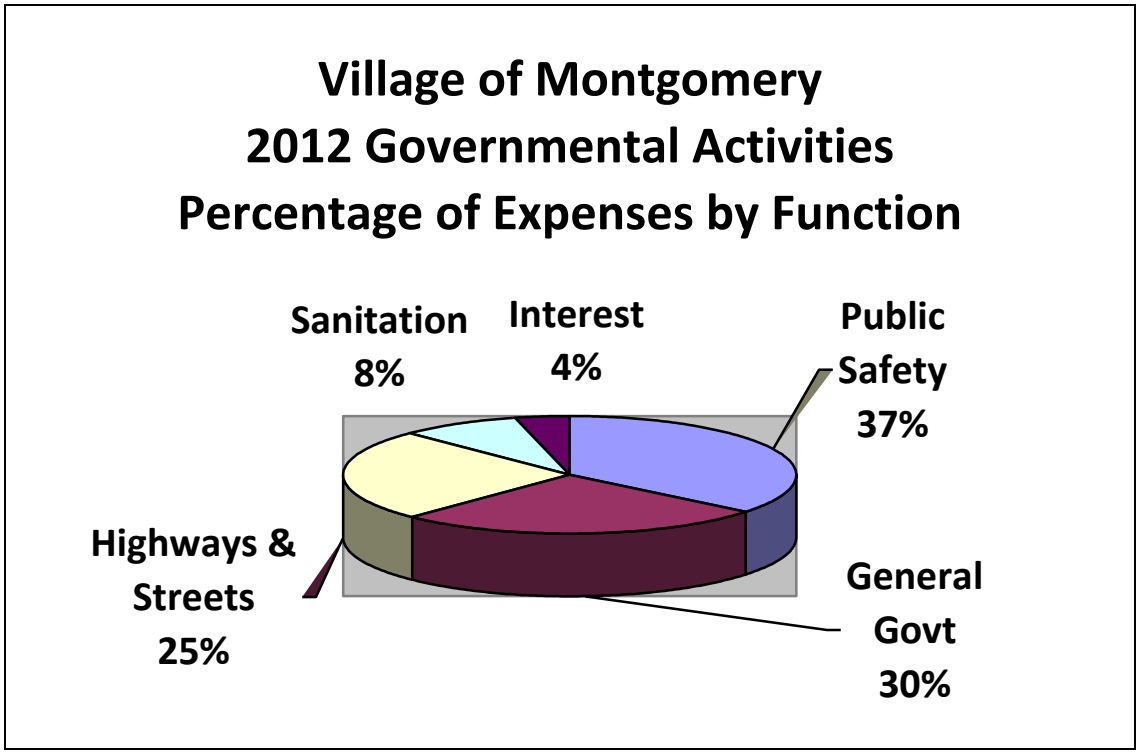
Governmental activities increased the Village's net assets by $2,023,050. Key elements contributing to this change are as follows:

Revenues:

For the fiscal year ended April 30, 2012, total revenues from governmental activities decreased by $3,757,371 or 20.4%. While revenues from taxes increased from FY11 to FY12, this increase was offset by a decreased amount of infrastructure improvements accepted by the Village through donations from developers.

Taxes received from various sources continue to play an important role in the Village's revenue structure. Other taxes increased by $185,880 (3.2%) from fiscal year 2011. Other taxes include property tax, local utility tax and state-shared income tax. They represent 56.7% of the total governmental activities revenue. The Village's largest source of revenue, sales tax, increased by $93,346 from FY11. State-shared income tax and property tax also increased from FY11 levels, as the effects of the economic downturn began to lessen.

Expenses:



For FY12, governmental activity expenses totaled $12,605,290, an increase of $222,219 (1.8%) over FY11. The Village continually monitors revenue and expense levels as compared to budgeted amounts, and institutes measures as necessary to bring expense levels in line with anticipated revenue. Included in the measures are deferring purchases and/or projects and lowering wage increases from historical levels. The highways and streets expenses decreased by $434,827 (12.0%) from fiscal year 2011. This was primarily due to the Village being able to perform a greater amount of roadway maintenance during FY11 due to the receipt of additional grant funding in that year.

Business-Type Activities

The business-type activities increased the Village's net assets by $582,015 to $29,098,760. Key elements contributing to this net change are as follows:

Revenue:

The total revenue for the business-type activities increased by $213,689 from $5,502,647 in FY11 to $5,716,336 in FY12. The Village increased water rates during the year which resulted in an increase in charges for services.

Expenses:

Total expenses for the business-type activities at the end of the fiscal year were $5,134,321, an increase of 25.0%, which is primarily due to increased capital activity, including the construction of well #15 and improvements to the Village's main water treatment plant.

FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS

Governmental Funds

The focus of the Village's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Village's financing requirements. In particular, unrestricted fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. As of April 30, 2012, the Governmental Funds (presented on page 6) reported a combined fund balance of $6,349,358, which is a 3.3% increase from the beginning of the year fund balance of $6,148,185. Of the total fund balance, ($253,167) is an unassigned deficit which must be made up by utility tax revenue in excess of that necessary for the repayment of outstanding debt.

The General Fund is the Village's primary operating fund and the largest source of day-to-day service delivery. The General Fund's total fund balance increased by $360,205 from $2,815,821 in FY11 to $3,176,026 in FY12.

The Capital Improvement Fund is another major governmental fund. The fund balance of the Capital Improvement Fund at April 30, 2012, is ($243,856), a decrease of $184,620.

General Fund Budgetary Highlights

The General Fund actual revenues were more than the budgeted revenues by $347,926 for fiscal year 2012. Of this excess, sales tax revenue accounted for $93,346 (26.8%) of the total.

The General Fund total actual expenditures were $9,439 less than the budgeted amount. The Village continued its efforts to reduce spending by taking steps which included lowering wage increases, leaving positions vacant and delaying purchases/projects.

Capital Assets

The Village's investment in capital assets, net of accumulated depreciation, for its governmental and business-type activities as of April 30, 2012 equals $94,932,760. The investment in capital assets includes land, buildings, underground systems, infrastructure and construction in process. This amount represents a net increase of $5,014,219. During the year, the Village accepted public improvements in the Balmorea and Blackberry Crossing West subdivisions including right-of-way, streets, stormsewer and

watermains. The total value of the developer contributions was $5,167,048. Additional information on the Village of Montgomery's capital assets can be found in note 6 on pages 29-30 of this report.

Debt Outstanding

At the end of the current fiscal year, the Village of Montgomery had debt outstanding of $20,185,560 which does not include compensated absences, net pension obligation, other postemployment benefit, loss on refunding and bond premiums. Governmental activities debt consisted of $13,115,000, of which $6,705,000 represent alternative revenue bonds issued for construction of the Police facility and the remaining amount are two debt issues related to the construction of Village Hall. Overall, governmental activity debt decreased by $870,000 from the beginning of the fiscal year. Business-type activities debt was $7,070,560 at year-end, which includes $4,825,560 in low interest loans from the IEPA for construction of a water treatment plant, well construction and improvements to the main water treatment plant. Additional information on the Village of Montgomery's debt outstanding can be found in note 8 on pages 31-36 of this report.

CONTACTING THE VILLAGE'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the Village's finances and to demonstrate the Village's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to Jeff Zoephel, Finance Director, Village of Montgomery, 200 N. River Street, Montgomery, IL 60538.

RECONCILIATION OF FUND BALANCES OF GOVERNMENTAL FUNDS TO THE GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF NET ASSETS

April 30, 2012

FUND BALANCES OF GOVERNMENTAL FUNDS	$ 6,349,358
Amounts reported for governmental activities in the statement of net assets are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds	60,593,164
Certain assets are not financial resources and, therefore, are not reported in governmental funds	
Unamortized issuance costs	104,463
Internal service fund is reported on the statement of net assets but not on the governmental fund financial statements	133,286
Loss on refundings are reported as reduction of long-term debt on the statement of net assets	160,347
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the governmental funds	
General obligation bonds payable	(13,115,000)
Accrued interest payable	(180,953)
Unamortized bond premium	(345,559)
Net pension obligation	(264,955)
Net other postemployment benefit obligation	(20,563)
Compensated absences payable	(387,509)
NET ASSETS OF GOVERNMENTAL ACTIVITIES	$ 53,026,079

See accompanying notes to financial statements.

VILLAGE OF MONTGOMERY, ILLINOIS

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES

For the Year Ended April 30, 2012

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	$ 201,173
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report bond issuance costs, refundings and capital outlays as expenditures; however, they are capitalized and depreciated in the statement of activities	
Capital expenditures capitalized	118,771
Loss on disposal of capital assets	(31,245)
Proceeds from the issuance of long term debt	(4,410,000)
Premium on bonds issued	(2,857)
Payment to escrow agent	4,412,857
Contributions of capital assets are reported as capital grants and contributions on the statement of activities	3,141,542
The repayment of long-term debt is reported as an expenditure when due in governmental funds but as a reduction of principal outstanding in the statement of activities	
Compensated absences	188,470
Net pension obligation	(91,678)
Net other postemployment benefit obligation	(6,682)
Principal	915,000
Change in interest	40,234
Amortization of issuance costs	19,304
The internal service fund change in net assets	133,286
Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds	
Depreciation of capital assets	(2,605,125)
CHANGES IN NET ASSETS OF GOVERNMENTAL ACTIVITIES	$ 2,023,050

See accompanying notes to financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Village of Montgomery, Illinois (the Village) are in accordance with accounting principles generally accepted in the United States of America, as applied to governmental units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the significant accounting policies of the Village.

a. Reporting Entity

The Village is a municipal corporation established under Illinois Compiled Statutes (ILCS) governed by an elected President and Board of Trustees. The Village has defined its reporting entity in accordance with GASB Statement No. 14. Financial accountability is defined as the appointment of a voting majority of the component unit's board, and either (1) the Village's ability to impose its will over the component unit or (2) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the Village. The Police Pension Fund is a legally separate organization from the Village and has its own governing board. However, although legally separate, this fund is reported as a fiduciary fund of the Village, because it is fiscally dependent on the Village and administered exclusively for the benefit of the Village's police personnel.

b. Fund Accounting

The Village uses funds to report its financial position and the changes in its financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into the following categories: governmental, proprietary and fiduciary.

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of restricted or committed monies (special revenue funds), the funds restricted, committed or assigned for the acquisition or construction of capital assets (capital projects funds) and the servicing of general long-term debt (debt service funds). The general fund is used to account for all activities of the general government not accounted for in some other fund.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Fund Accounting (Continued)

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful for sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds). Pursuant to GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Government Entities That Use Proprietary Fund Accounting*, the Village has chosen to apply all GASB pronouncements as well as those FASB pronouncements issued on or before November 30, 1989 to account for its enterprise funds.

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the government. The Village utilizes a pension trust fund which is generally used to account for assets that the Village holds in a fiduciary capacity and agency funds to account for assets that the Village holds in an agent capacity.

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the Village. The effect of material interfund activity has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and standard revenues that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements (Continued)

The Village reports the following major governmental funds:

The General Fund is the general operating fund of the Village and is used to account for all financial resources of the Village unless required to be accounted for in another fund.

The Capital Improvement Fund is used to account for resources restricted, committed or assigned for the acquisition of capital assets or construction of major capital projects not being financed by proprietary funds.

The Debt Service Fund is used to account for the repayment of the 2008, 2010 and 2011 general obligation alternate revenue source bonds that are being repaid with utility taxes restricted for the repayment of the bonds.

In addition, the Village reports the following major enterprise fund:

The Water Fund is used to account for the revenues and expenses relative to the operation of the Village owned water utility.

Additionally, the Village reports the following internal service fund:

The Employee Insurance Fund is used to account for providing health insurance to village employees. This fund is reported as part of the governmental activities on the government-wide financial statements as it provides services primarily to the Village's governmental funds/activities.

The Village reports a pension trust fund as a fiduciary fund to account for the Police Pension Fund. Agency funds are used to account for Talma Street Special Service Area, Special Assessments and Special Service Area No. 10 and No. 17 debt repayments (all no commitment debt), developer's escrow and the employee flex benefit program.

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements (except the agency funds which do not have a measurement focus). Revenues and additions are recorded when earned and expenses and deductions are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Operating revenues/expenses include all revenues/expenses directly related to providing enterprise fund services. Incidental revenues/expenses are reported as nonoperating.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal period, except for sales and telecommunication taxes which use a 90-day period. Expenditures generally are recorded when a fund liability is incurred. However, debt service expenditures are recorded only when payment is due.

Property taxes, sales and telecommunication taxes owed to the state at year end, franchise taxes, licenses, charges for services and interest associated with the current fiscal period are all considered to be susceptible to accrual and are recognized as revenues of the current fiscal period. Fines and permit revenue are considered to be measurable and available only when cash is received by the Village.

In applying the susceptible to accrual concept to intergovernmental revenues (i.e., federal and state grants), the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the Village; therefore, revenues are recognized based upon the expenditures/expenses recorded. In the other, monies are virtually unrestricted as to purpose of expenditure/expense and are generally revocable only for failure to comply with prescribed eligibility requirements, such as equal employment opportunity. These resources are reflected as revenues at the time of receipt or earlier if they meet the availability criterion.

The Village reports unearned/deferred revenue on its financial statements. Unearned/deferred revenues arise when a potential revenue does not meet both the measurable and available or earned criteria for recognition in the current period. Unearned/deferred revenues also arise when resources are received by the Village before it has a legal claim to them or prior to the provision of services, as when grant monies are received prior to the incurrence of qualifying expenditures/expenses. In subsequent periods, when both revenue recognition criteria are met, or when the Village has a legal claim to the resources, the liability is removed from the financial statements and revenue is recognized.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

e. Cash and Cash Equivalents

Cash and cash equivalents are defined as cash on hand and in interest-bearing and noninterest-bearing checking accounts.

f. Investments

Investments of the Village consist of money market accounts, certificates of deposit with various local financial institutions, various marketable securities, pooled investments and insurance company annuity contracts. Investments are stated at fair value, except for nonnegotiable certificates and other nonpension fund investments with a maturity of less than one year at date of purchase which are stated at cost or amortized cost.

g. Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered (interfund services). These receivables and payables are classified as “due from other funds” or “due to other funds” on the financial statements as are short-term interfund loans. Long-term interfund loans, if any, are classified as advances to/from other funds.

h. Capital Assets

Capital assets, which include property, plant, equipment and prospectively reported infrastructure assets (e.g., roads, bridges, storm sewers and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial, individual cost of more than $10,000 for equipment, $20,000 for vehicles, $25,000 for software, $50,000 for buildings and land improvements, $50,000 for easements and $100,000 for infrastructure and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs, including street overlays that do not add to the value or service capacity of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Property, plant and equipment are depreciated using the straight-line method over the following estimated useful lives:

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

h. Capital Assets (Continued)

Land Improvements	20 years
Buildings and Building Improvements	20 years
Equipment	7 - 10 years
Vehicles	5 - 10 years
Water Distribution System	25 - 50 years
Other Infrastructure	25 years
Software	5 years

i. Compensated Absences

Vested or accumulated vacation leave and sick pay related to employees that have retired or terminated at year end but are not yet paid out is reported as an expenditure and a fund liability of the governmental fund (general fund) that will pay it. Vested and accumulated vacation leave and sick pay of the proprietary funds and governmental activities is recorded as an expense and liability as the benefits accrue to employees.

j. Long-Term Obligations

In the government-wide financial statements, and proprietary funds in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund financial statements. Bond premiums and discounts, as well as issuance costs and loss on refunding, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount and loss on refunding. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

k. Fund Balances/Net Assets

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or are legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose, or externally imposed by outside entities or from enabling legislation adopted by the Village. Committed fund balance is constrained by formal actions of the Village's Board of Trustees, which is considered the Village's highest level of decision making authority. Formal actions include resolutions and ordinances approved by the Board of Trustees. Assigned fund balance represents amounts constrained by the Village's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the Finance Director by Board Policy No. 03-07. Any residual fund balance in the General Fund and any deficit fund balance of any other governmental fund are reported as unassigned.

The Village's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending the Village considers committed funds to be expended first followed by assigned funds and then unassigned funds. The Village has established fund balance reserve policies for its general fund. The policy requires unassigned fund balance to be maintained in the general fund equivalent to 25% of the audited expenditures excluding capital transfers.

In the government-wide financial statements, restricted net assets are legally restricted by outside parties for a specific purpose. Invested in capital assets, net of related debt represents the book value of capital assets less any long-term debt issued to acquire or construct the capital assets.

None of the restricted net assets or restricted fund balance results from enabling legislation adopted by the Village.

l. Interfund Transactions

Interfund services are accounted for as revenues, expenditures or expenses in the effected funds. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions are reported as transfers.

2. CASH AND INVESTMENTS

The Village's investment policy authorizes the Village to make deposits/invest in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services and Illinois Funds.

Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the state to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at Illinois Funds' share price, the price at which the investment could be sold.

The Police Pension Fund can invest in the same securities as the Village, plus the following: certain non-U.S. obligations (corporate debt securities), Illinois municipal corporations tax anticipation warrants, veteran's loans, obligations of the State of Illinois and its political divisions, Illinois insurance company general and separate accounts and equity mutual funds.

It is the policy of the Village to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Village and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objective of the policy is safety (preservation of capital and protection of investment principal), liquidity and yield.

a. Village Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the Village's deposits may not be returned to it. The Village's investment policy requires pledging of collateral with a fair value of 110% of all bank balances in excess of federal depository insurance with the collateral held by an independent third party or by the Federal Reserve Bank. As of April 30, 2012, the Village had $51,349 in uncollateralized deposits out of total bank balance of deposits of $7,647,464.

2. CASH AND INVESTMENTS (Continued)

b. Village Investments

In accordance with its investment policy, the Village limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds and maximizing yields for funds not needed within a one-year period. The investment policy limits the maximum maturity length of investments to one year from the date of purchase, except if matched to anticipated cash flow requirement (e.g., bond proceeds), in which case the maximum maturity is two years, unless specifically approved by the Board of Trustees.

The Village investment policy does not address credit risk; however, the Village limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in obligations guaranteed by the United States Government or securities issued by agencies of the United States Government that are explicitly or implicitly guaranteed by the United States Government. Illinois Funds and the money market funds are rated AA by Standard and Poor's.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Village will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Village's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by a third party acting as the Village's agent separate from where the investment was purchased. Illinois Funds and the money market funds are not subject to custodial credit risk.

Concentration of credit risk - The Village's investment policy does not limit the amount of the portfolio that can be invested in any one investment vehicle as follows but does require reasonable diversification of the portfolio.

c. Police Pension Fund Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the Police Pension Fund's deposits may not be returned to them. The Police Pension Fund's investment policies require pledging of collateral for all bank balances in excess of federal depository insurance and flow-through FDIC insurance with the collateral held by a third party acting as the Police Pension Fund's agent.

2. CASH AND INVESTMENTS (Continued)

d. Police Pension Fund Investments

The following table presents the investments and maturities of the Police Pension Fund's debt securities as of April 30, 2012:

		Investment Maturities (in Years)			
Investment Type	Fair Value	Less than 1	1-5	6-10	Greater than 10
U.S. Agency Obligations	$ 1,046,763	$ -	$ 622,394	$ 405,354	$ 19,015
U.S. Treasury Obligations	133,401	-	44,600	88,801	-
State and Local Obligations	275,165	-	-	140,821	134,344
Corporate Securities	1,042,550	129,282	451,377	461,891	-
TOTAL	$ 2,497,879	$ 129,282	$ 1,118,371	$ 1,096,867	$ 153,359

In accordance with its investment policy, the Police Pension Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds and maximizing yields for funds not needed within a one-year period. The investment policy requires no more than 30% of the debt portfolio to mature greater than 15 years, 30% to mature within 5 to 15 years and 30% to mature within 0 to 5 years.

The Police Pension Fund investment policy does not address credit risk; however, the Police Pension Fund limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in obligations guaranteed by the United States Government or securities issued by agencies of the United States Government or corporate securities that are explicitly or implicitly guaranteed by the United States Government. The U.S. agency obligations, state and bond obligations and corporate security mutual funds, for which ratings were available, range from BBB+ to AAA.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Police Pension Fund will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Police Pension Fund's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by a third party acting as the Police Pension Fund's agent separate from where the investment was purchased in the Police Pension Fund's name. Bond mutual funds and the money market funds are not subject to custodial credit risk.

Concentration of credit risk - The Police Pension Fund's investment policy does not limit the amount of the portfolio that can be invested in any one investment vehicle except for investments in equity securities, which is limited to 45% of the portfolio.

2. CASH AND INVESTMENTS (Continued)

d. Police Pension Fund Investments (Continued)

The Police Pension Fund's investment policy does not specifically prohibit the use of or the investment in derivatives, but does prohibit the purchase of securities on margin.

3. NOTES RECEIVABLE - ECONOMIC DEVELOPMENT

During the fiscal year ended April 30, 1985, the Village established the Economic Development Fund from the proceeds of a Community Development Block Grant, in the amount of $500,000, received through the Department of Commerce and Community Affairs of the State of Illinois. During the fiscal year ended April 30, 1991, the Village received another Community Development Block Grant in the amount of $300,000. This fund is used to account for these grant funds which are to be loaned to new or expanding local business ventures which enhance economic development of the Village. Proceeds (principal and interest) received from such economic development loans made by the Village are to be used to capitalize a revolving economic development loan fund. The following represents the outstanding balances as of April 30, 2012:

a. During the fiscal year 2006, the Village entered into an installment note with EDM Associates, Inc., in the amount of $120,000. During the fiscal year 2011, the remaining balance was assumed by Ridgeline Consultants LLC. The note is payable in monthly installments of $1,159 through May 2016, which includes 3.0% interest on the unpaid balance. The outstanding balance of this note as of April 30, 2012 was $53,375.

b. During the fiscal year 2011, the Village entered into an installment note with Fox River Foods Inc. (FRF Leasing), in the amount of $1,125,000. The note is payable in monthly installments of $10,863 through May 2020, which includes 3.0% interest on the unpaid balance. The outstanding balance of this note as of April 30, 2012 was $934,654.

3. NOTES RECEIVABLE - ECONOMIC DEVELOPMENT (Continued)

Principal and interest maturities of these notes receivable for future periods are as follows:

Year Ending April 30,	Amount
2013	$ 144,262
2014	144,262
2015	144,262
2016	144,262
2017	131,515
2018	130,357
2019	130,357
2020	130,357
2021	10,863
Total Principal and Interest	1,110,497
Interest	(122,468)
TOTAL PRINCIPAL	$ 988,029

4. RECEIVABLES

The following receivables are included in due from other governments on the statement of net assets:

GOVERNMENTAL ACTIVITIES	
Sales Tax	$ 635,720
Local Use Tax	58,223
Court Fines	19,975
Telecommunications Tax	150,499
Infrastructure Maintenance	21,312
Income Tax	549,959
Grants	41,928
Motor Fuel Tax	35,795
TOTAL GOVERNMENTAL ACTIVITIES	$ 1,513,411
BUSINESS-TYPE ACTIVITIES	
Due from the State	$ 818,972
TOTAL BUSINESS-TYPE ACTIVITIES	$ 818,972

4. RECEIVABLES (Continued)

The following receivables are included in accounts receivable on the statement of net assets:

GOVERNMENTAL ACTIVITIES	
Utility Tax	$ 89,006
Due from Developer	211,607
Engineering Fees	147,902
Garbage	254,702
TOTAL GOVERNMENTAL ACTIVITIES	$ 703,217
BUSINESS-TYPE ACTIVITIES

General Government	$ 651,758
Public Safety	528,326
Highways and Streets, Including Depreciation of General Infrastructure Assets	1,425,041
TOTAL DEPRECIATION EXPENSE - GOVERNMENTAL ACTIVITIES	$ 2,605,125

b. Construction Contracts

The Village has entered into contracts for the construction or renovation of various facilities as follows:

	Project Authorizations	Expended to Date	Commitment
Well #14 & #15 rehabilitation and construction	$ 4,336,971	$ 3,911,254	$ 425,717
TOTAL	$ 4,336,971	$ 3,911,254	$ 425,717

7. PROPERTY TAX CALENDAR

The following information gives significant dates on the property tax calendar of the Village.

- The property tax lien date is January 1.
- The annual tax levy ordinance for the 2011 levy was passed on December 12, 2011.
- Property taxes for the 2011 levy are due to the County Collector in two installments, June 1, 2012 and September 1, 2012.
- Significant amounts of property taxes for the 2011 levy will be distributed to the Village during June, July, August and September of 2012. The remaining distributions are expected to be received in October and November 2012.
- The 2012 tax levy, which attached as an enforceable lien on property as of January 1, 2012, has not been recorded as a receivable as of April 30, 2012 as the tax has not yet been levied by the Village, and will not be levied until December 2012 and, therefore, the levy is not measurable at April 30, 2012.

8. LONG-TERM DEBT

a. Governmental Activities

The following is a summary of changes in general long-term debt reported in the governmental activities of the Village for the year ended April 30, 2012:

	Balance May 1	Issuances	Repayments/ Refundings	Balance April 30	Current Portion
2005 General Obligation Alternate Revenue Source Bonds	$ 4,610,000	$ -	$ 4,610,000	$ -	$ -
2008 General Obligation Alternate Revenue Source Bonds	2,000,000	-	-	2,000,000	-
2010 General Obligation Alternate Revenue Source Refunding Bonds	7,375,000	-	670,000	6,705,000	785,000
2011 General Obligation Alternate Revenue Source Refunding Bonds	-	4,410,000	-	4,410,000	295,000

* Repaid by the General Fund.

8. LONG-TERM DEBT (Continued)

a. Governmental Activities (Continued)

Governmental activities long-term debt payable at April 30, 2012 is comprised of the following issues:

General Obligation Alternate Revenue Source Bonds, Series 2005 dated June 1, 2005, payable from utility, telecommunication and sales taxes payable to the Village. The bonds are due in annual installments of $185,000 to $435,000 through December 1, 2025, with interest ranging from 3.25% to 4.25%, payable each June 1 and December 1 and are being paid by the Debt Service Fund. These bonds were refunded during the current fiscal year.

General Obligation Alternate Revenue Source Bonds, Series 2008 dated August 1, 2008, payable from utility, telecommunication and sales taxes payable to the Village. The bonds are due in annual installments of $1,000,000 on December 1, 2018 and December 1, 2019, with interest at 5.00% payable each June 1 and December 1 and are being paid by the Debt Service Fund.

General Obligation Alternate Revenue Source Refunding Bonds Series 2010 dated June 1, 2010 payable from utility, telecommunication and sales taxes payable to the Village. The bonds are due in annual amounts of $670,000 to $1,405,000 through December 1, 2017 with interest payable each June 1 and December 1 at rates from 2.00% to 4.00%, and are being repaid by the Debt Service Fund.

General Obligation Alternate Revenue Source Refunding Bonds Series 2011 dated December 15, 2011 payable from utility, telecommunication and sales taxes payable to the Village. The bonds are due in annual amounts of $205,000 to $450,000 through December 1, 2024 with interest payable each June 1 and December 1 at rates from 2.00% to 3.125%, and are being repaid by the Debt Service Fund.

The proceeds of the series 2011 bonds were used to advance refund $4,365,000 of the Series 2005 General Obligation Alternate Revenue Source Bonds which were called on February 1, 2012. As a result of the refunding the Village realized a cash flow savings of $493,224 and an economic gain of $413,475.

8. LONG-TERM DEBT (Continued)

b. Business-Type Activities/Enterprise Fund Long-Term Debt (Continued)

Total enterprise fund/business-type activities bonded debt payable at April 30, 2012 is comprised of the following issues:

General Obligation Alternative Revenue Source Bonds, Series 2007, payable from user fees generated in the Water Fund. These bonds are reported in the Water Fund since the intent of the Village is to use water revenues to abate the tax levy authorized for repayment of this obligation. The bonds are due in annual installments of $5,000 to $365,000 from December 1, 2008 through December 1, 2018, with interest at 3.95% payable each June 1 and December 1.	$ 2,245,000
Installment Loan Payable #1 agreement with the Illinois Environmental Protection Agency for advances of up to $1,144,627 for construction of a sewer treatment plant. The advances bear interest at 2.675% and require semiannual payments of principal and interest.	708,531
Installment Loan Payable #2 agreement with the Illinois Environmental Protection Agency for advances of up to $4,336,971 for rehabilitation of the water treatment plant, drilling of well #15, installation of well #15 water main and improvements to well #14. The advances bear interest at 1.250% and require semiannual payments of principal and interest. Repayment has not yet begun as the project is still in progress.	4,117,029
TOTAL ENTERPRISE FUND DEBT PAYABLE	$ 7,070,560

Debt service to maturity for these issues is as follows:

Fiscal	Series 2007 Bond		IEPA Loan #1		
Year	Principal	Interest	Principal	Interest	Total
2013	$ 280,000	$ 88,678	$ 56,207	$ 18,583	$ 443,468
2014	290,000	77,618	57,721	17,069	442,408

8. LONG-TERM DEBT (Continued)

c. Special Service Area Bonds

During the fiscal year ended April 30, 1997, the Village issued $125,000 Special Service Area No. 1 bonds, dated November 1, 1996. During the fiscal year ended April 30, 2006, the Village issued $275,000 Special Service Area No. 17 Bonds. The bonds are payable solely from the special service area taxes levied upon the properties located in the special service areas and do not constitute an indebtedness of the Village. The Village is acting solely as paying agent in collecting the taxes and remitting them to the bond holders. Accordingly, these bonds are not reported as a liability in the Village's financial statements. As of April 30, 2012, the Special Service Area No. 1 bonds were paid off and $130,757 of the Special Service Area No. 17 bonds are outstanding.

d. Special Assessment Bonds

During the fiscal year ended April 30, 2007, the Village refunded $11,923,000 of special assessment bonds, which will be paid from escrow through March 1, 2012. The refunding special assessment bonds, dated December 1, 2006, were outstanding as of April 30, 2012 and totaled $12,246,962. These bonds are not an obligation of the Village and are secured by the levy of special assessments on the real property within the special assessment area. The Village is in no way liable for repayment but is only acting as agent for the property owners in levying and collecting the assessments and forwarding the collections to bondholders.

e. Conduit Debt

The Village has issued Industrial Development Revenue Bonds (IDRBs) to provide financial assistance to private organizations for the construction and acquisition of industrial and commercial improvements deemed to be in the public interest. The bonds are secured solely by the property financed and are payable solely from the payments received on the underlying mortgage loans on the property. The Village is not obligated in any manner for the repayment of the bonds. Accordingly, the bonds outstanding are not reported as liability in these financial statements. At April 30, 2012, there was one IDRB outstanding with an original par value of $7,100,000.

f. Pledged Revenues

The Village has issued Alternate Revenue Source Bonds for which they have pledged future revenue streams. The Series 2007 General Obligation Alternate Revenue Source Bonds, issued for various water system improvements, are payable for a pledge of the Village's water operations revenue. The 2007 bonds have a remaining total pledge of $2,615,708, with the bonds maturing December 1, 2018. During the current fiscal year, the pledge of water revenues for the 2007 bonds of $369,343 was approximately 10.01% of total water revenues.

8. LONG-TERM DEBT (Continued)

f. Pledged Revenues (Continued)

The 2008 General Obligation Alternate Revenue Source Bonds, issued for the construction of the Village Hall, are payable from a pledge of sales tax, telecommunication and use tax, with a remaining total pledge of $2,750,000 and the bonds December 1, 2019. During the current fiscal year, the pledge of sales tax and use tax of $100,000 was approximately 2.88% of total sales, telecommunication and use tax.

The 2010 General Obligation Alternate Revenue Source Refunding bonds, issued to refund the Series 2002A General Obligation Alternate Revenue Source Bonds, are payable from a pledge of sales tax, telecommunication and use tax, with a remaining total pledge of $7,628,725 and the bonds December 1, 2017. During the current fiscal year, the pledge of sales tax and use tax of $914,225 was approximately 26.35% of total sales, telecommunication and use tax.

The 2011 General Obligation Alternate Revenue Source Refunding bonds, issued to refund the Series 2005 General Obligation Alternate Revenue Source Bonds, are payable from a pledge of sales tax, telecommunication and use tax, with a remaining total pledge of $5,300,276 and the bonds December 1, 2024. During the current fiscal year, there was no pledge of sales tax and use tax.

9. RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; employee health; and injuries to the Village's employees. To insure against the losses, the Village participates in the Municipal Insurance Cooperative Agency (MICA), a public entity risk pool with transfers of risk. The Village pays an annual premium to MICA for its coverage. The Village is not aware of any additional premiums owed to MICA as of April 30, 2012, for the current or prior claim years. In addition, the Village provides health insurance to its employees through a third party indemnity policy. The Village pays an annual premium to the insurance company for its coverage. Settled claims have not exceeded the coverage in the current or preceding two fiscal years.

10. COMMITMENTS AND CONTINGENCIES

Economic Incentive

The Village has entered into economic development agreements with three companies in Montgomery to provide sales tax rebates. The agreements require the Village to rebate to the companies different levels of additional sales tax generated by the facilities.

The total expenditures paid during the year ended April 30, 2012 was $606,273, and the total cumulative expenditures incurred to date in rebates of current development agreements was $2,687,755.

11. DEFINED BENEFIT PENSION PLANS

The Village contributes to two defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system and the Police Pension Plan which is a single-employer pension plan. The benefits, benefit levels, employee contributions and employer contributions for plans are governed by ILCS and can only be amended by the Illinois General Assembly. None of the pension plans issue separate reports on the pension plans. However, IMRF does issue a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

a. Plan Descriptions

Illinois Municipal Retirement Fund (IMRF)

All employees (other than those covered by the Police Pension Plan) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

11. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Illinois Municipal Retirement Fund (IMRF) (Continued)

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute. Participating members are required to contribute 4.5% of their annual salary to IMRF. The Village is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The employer contribution for fiscal year ended April 30, 2012 was 11.23% of covered payroll.

Police Pension Plan

Police sworn personnel are covered by the Police Pension Plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/3-1) and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund. At April 30, 2012, the Police Pension Plan membership consisted of:

Retirees and Beneficiaries Currently Receiving Benefits and Terminated Employees Entitled to Benefits but not yet Receiving Them	7
Current Employees	
Vested	7
Nonvested	13
TOTAL	27

11. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

The Police Pension Plan provides retirement benefits through two tiers of benefits as well as death and disability benefits. Tier 1 employees (those hired as police officers prior to January 1, 2011) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75.00% of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3.00% of the original pension and 3.00% compounded annually thereafter.

Tier 2 employees (those hired as police officers on or after January 1, 2011) attaining the age of 55 or older with ten or more years of creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the police officer during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Police officers' salary for pension purposes is capped at $106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3.00% compounded. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75.00% of such salary. Employees with at least ten years may retire at or after age 50 and receive a reduced benefit (i.e., ½% for each month under 55). The monthly benefit of a Tier 2 police officer shall be increased annually at age 60 on the January 1st after the police officer retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3.00% or ½ of the change in the Consumer Price Index for the proceeding calendar year.

Employees are required by ILCS to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan, including the costs of administering the plan, as actuarially determined by an enrolled actuary. Effective January 1, 2011, the Village has until the year 2040 to fund 90% of the past service cost for the Police Pension Plan. For the year ended April 30, 2012, the Village's contribution was 23.0% of covered payroll.

11. DEFINED BENEFIT PENSION PLANS (Continued)

b. Significant Investments

Significant investments are defined as investments in any one organization that represent 5.00% or more of plan net assets for the Police Pension Plan (other than U.S. Government guaranteed obligations). At April 30, 2012, the Village had two separate annuity contracts and one mortgage backed security that were each valued at greater than 5.00% of the total plan net assets for the Police Pension Plan. Information for IMRF is not available.

c. Annual Pension Costs

Employer contributions have been determined as follows:

	Illinois Municipal Retirement	Police Pension
Actuarial Valuation Date	December 31, 2009	May 1, 2011
Actuarial Cost Method	Entry-age Normal	Entry-age Normal
Asset Valuation Method	5 Year Smoothed Market	3 Year Smoothed Market
Amortization Method	Level Percentage of Payroll	Level Percentage of Payroll
Amortization Period	30 Years, Open	30 Years, Closed
Significant Actuarial Assumptions		
a) Rate of Return on Present and Future Assets	7.50% Compounded Annually	7.00% Compounded Annually
b) Projected Salary Increase - Attributable to Inflation	4.00% Compounded Annually	2.50% Compounded Annually
c) Additional Projected Salary Increases - Seniority/Merit	0.4% to 10.0%	N/A
d) Postretirement Benefit Increases	3.00%	3.00%

11. DEFINED BENEFIT PENSION PLANS (Continued)

c. Annual Pension Costs (Continued)

Employer annual pension cost (APC), actual contributions and the net pension obligation (asset) (NPO) are as follows. The NPO (asset) is the cumulative difference between the APC and the contributions actually made.

	Fiscal Year	Illinois Municipal Retirement	Police Pension
Annual Pension Cost (APC)	2010	$ 261,859	$ 338,139
	2011	258,237	411,141
	2012	282,337	416,171
Actual Contribution	2010	$ 261,859	$ 239,611
	2011	258,237	241,802
	2012	282,337	324,493
Percentage of APC Contributed	2010	100.00%	70.86%
	2011	100.00%	58.81%
	2012	100.00%	77.97%
NPO (Asset)	2010	$ -	$ 3,938
	2011	-	173,277
	2012	-	264,955

The net pension obligation (asset) has been calculated as follows as of April 30, 2012:

	Police Pension
Annual Required Contributions	$ 411,177
Interest on Net Pension Obligation	12,129
Adjustment to Annual Required Contribution	(7,135)
Annual Pension Cost	416,171
Contributions Made	324,493
Increase in Net Pension Obligation	91,678
Net Pension Obligation (Asset), May 1	173,277
NET PENSION OBLIGATION (ASSET), APRIL 30	$ 264,955

11. DEFINED BENEFIT PENSION PLANS (Continued)

d. Funded Status

The funded status of the plans as of April 30, 2012, based on actuarial valuations performed as of December 31, 2011 for IMRF and May 1, 2011 for the Police Pension Fund is as follows. The actuarial assumptions used to determine the funded status of the plans are the same actuarial assumptions used to determine the employer APC of the plans as disclosed in Note 11-C:

	Illinois Municipal Retirement	Police Pension
Actuarial Accrued Liability (AAL)	$ 6,117,528	$ 9,881,963
Actuarial Value of Plan Assets	4,040,584	6,158,416
Unfunded Actuarial Accrued Liability (UAAL)	2,076,944	3,723,547
Funded Ratio (Actuarial Value of Plan Assets/AAL)	66.05%	62.32%
Covered Payroll (Active Plan Members)	$ 2,340,676	$ 1,410,349
UAAL as a Percentage of Covered Payroll	88.73%	264.02%

See the schedules of funding progress in the required supplementary information immediately following the notes to financial statements for additional information related to the funded status of the plans.

12. OTHER POSTEMPLOYMENT BENEFITS

a. Plan Description

In addition to providing the pension benefits described, the Village provides postemployment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the Village and can be amended by the Village through its personnel manual, except for the implicit subsidy which is governed by the State Legislature and ILCS. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report. The activity of the plan is reported in the Village's governmental activities.

12. OTHER POSTEMPLOYMENT BENEFITS (Continued)

b. Benefits Provided

The Village provides continued health insurance coverage at the active employee rate to all eligible employees in accordance with ILCS, which creates an implicit subsidy of retiree health insurance. To be eligible for benefits, an employee must qualify for retirement under the Village's retirement plans. For village nonuniformed employees (IMRF retirees), upon a retiree reaching age 65 years of age, Medicare becomes the primary insurer and the retiree is no longer eligible to participate in the plan, but can purchase a Medicare supplement plan from the Village's insurance provider. Retired uniformed police personnel are allowed to continue in the Village's plan indefinitely.

c. Membership

At April 30, 2012, membership consisted of:

Retirees and Beneficiaries Currently Receiving Benefits	7
Terminated Employees Entitled to Benefits but not yet Receiving Them	-
Active Employees	
Vested	23
Nonvested	30
TOTAL	60
Participating Employers	1

d. Funding Policy

The Village is not required to and currently does not advance fund the cost of benefits that will become due and payable in the future. Active employees do not contribute to the plan until retirement.

12. OTHER POSTEMPLOYMENT BENEFITS (Continued)

e. Annual OPEB Costs and Net OPEB Obligation

The Village first had an actuarial valuation performed for the plan as of May 1, 2009, to determine the funded status of the plan as of that date as well as the employer's annual required contribution (ARC) for the fiscal year ended April 30, 2010. The Village's annual OPEB cost (expense) of $32,081 was equal to the ARC for the fiscal year, as the transition liability was set at zero as of May 1, 2009. The Village's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for 2012 was as follows (information for the preceding year is not available as an actuarial valuation was performed for the first time as of May 1, 2009):

Fiscal Year Ended	Annual OPEB Cost	Employer Contributions	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
April 30, 2010	$ 32,081	$ 24,773	77.22%	$ 7,308
April 30, 2011	31,346	24,773	79.03%	13,881
April 30, 2012	31,455	24,773	78.76%	20,563

The net OPEB obligation as of April 30, 2012, was calculated as follows:

Annual Required Contribution	$ 31,224
Interest on Net OPEB Obligation	694
Adjustment to Annual Required Contribution	(463)
Annual OPEB Cost	31,455
Contributions Made	24,773
Increase in Net OPEB Obligation	6,682
Net OPEB Obligation, Beginning of Year	13,881
NET OPEB OBLIGATION, END OF YEAR	$ 20,563

Funded Status and Funding Progress. The funded status of the plan as of April 30, 2010 (most recent data available) was as follows:

Actuarial Accrued Liability (AAL)	$ 481,239
Actuarial Value of Plan Assets	-
Unfunded Actuarial Accrued Liability (UAAL)	481,239
Funded Ratio (Actuarial Value of Plan Assets/AAL)	N/A
Covered Payroll (Active Plan Members)	$ 3,868,449
UAAL as a Percentage of Covered Payroll	12.44%

12. OTHER POSTEMPLOYMENT BENEFITS (Continued)

e. Annual OPEB Costs and Net OPEB Obligation (Continued)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to financial statements, presents multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions - Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the April 30, 2010 actuarial valuation, the entry-age actuarial cost method was used. The actuarial assumptions included a discount rate of 5.00% and an initial healthcare cost trend rate of 8.00% with an ultimate healthcare inflation rate of 6.00%. Both rates include a 3.00% inflation assumption. The actuarial value of assets was not determined as the Village has not advance funded its obligation. The plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at April 30, 2012 was 30 years.

The Village implemented GASB Statement No. 45 for the fiscal year ended April 30, 2010.

Information for prior years is not available.

(See independent auditor's report.)

1. BUDGETS AND BUDGETARY ACCOUNTING

Annual budgets are adopted for all funds except the Arbor Ridge, Balmorea, Marquis Pointe, Ogden Hill Special Service Area and Lakewood Special Assessments Funds. Budgets are adopted on a basis consistent with generally accepted accounting principles. All annual appropriations lapse at fiscal year end.

All departments of the Village submit requests for appropriations to the Budget Officer so that a budget may be prepared. The budget is prepared by fund, department and division, and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

The proposed budget is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from or change appropriations, but may not change the form of the budget. The budget may be amended by the governing body.

The Board of Trustees approves transfers between departments within a fund and transfers between funds. Expenditures may not legally exceed budgeted appropriations at the department level. During the current fiscal year, no budget amendments were adopted.

2. EXCESSES OF EXPENDITURES OVER BUDGET

The following individual fund expenditures exceeded budget in the following amounts:

	Budget	Expenditures
Police Drug Fund	$ 6,250	$ 24,888
E911 Fund	-	5,505
Orchard Prairie North Special Service Area Fund	15,200	23,191
Vehicle Reserve Fund	50,000	125,127

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

Purpose:
These financial statements provide a more detailed view of the "General Purpose External Financial Statements" presented in the preceding subsection.

MAJOR GOVERNMENTAL FUNDS

CAPITAL PROJECTS FUNDS

Capital Improvement Fund - to account for funds restricted, committed or assigned for the acquisition of capital assets or construction of major capital projects not being financed by proprietary funds.

DEBT SERVICE FUNDS

Debt Service Fund - to account for the repayment of the 2002A, 2005 and 2008 general obligation alternate revenue source bonds that are being repaid with utility taxes.

FIDUCIARY FUNDS

Pension Trust Fund

Police Pension Fund - to account for the accumulation of resources to pay pension costs. Resources are contributed by police force members at rates fixed by state statutes and by the Village through an annual contribution from the General Fund from revenues received from the police pension property tax levy.

Agency Funds

Talma Street Special Service Area Fund - to account for tax collections to pay principal and interest on the Special Service Area Bonds.

Escrow Fund - to account for developer contributions held on behalf of other governments and for developer deposits.

Flexible Benefit Fund - to account for fringe benefits for employees.

Special Assessment Fund - to account for contributions from property owners and payments of principal and interest on the Special Assessment Bonds.

Special Service Area No. 10 Fund - to account for the tax collections to pay principal and interest on the Special Service Area No. 10 Bonds.

Cornell Special Service Area Fund - to account for the tax collections to pay principal and interest on the Special Service Area No. 17 Bonds.

STATISTICAL SECTION

This part of the Village's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information displays about the Village's overall financial health.

Contents	Page(s)
Financial Trends These schedules contain trend information to help the reader understand how the Village's financial performance and well-being have been changed over time.	90-98
Revenue Capacity These schedules contain information to help the reader assess the Village's most significant local revenue source, the property tax.	99-104
Debt Capacity The schedules present information to help the reader assess the affordability of the Village's current levels of outstanding debt and the Village's ability to issue additional debt in the future.	105-109
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the Village's financial activities take place.	110-111
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the Village's financial report relates to the services the Village provides and the activities it performs.	112-114

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The Village implemented GASB Statement No. 34 in 2005; schedules presenting government-wide information include information beginning in that year.

REPORT OF INDEPENDENT AUDITOR'S ON COMPLIANCE WITH PUBLIC ACT 85-1142

The Honorable President
Members of the Board of Trustees
Village of Montgomery
Montgomery, Illinois

We have examined management's assertion that the Village of Montgomery, Illinois, complied with the provisions of subsection (q) of Section 11-74.4-3 of the Illinois Tax Increment Redevelopment Allocation Act (Illinois Public Act 85-1142) during the fiscal year ended April 30, 2012. As discussed in that representation letter, management is responsible for the Village of Montgomery, Illinois' compliance with those requirements. Our responsibility is to express an opinion on management's assertion about the Village of Montgomery, Illinois' compliance based on our examination.

Our examination was made in accordance with the standards established by the American Institute of Public Accountants and, accordingly, included examining, on a test basis, evidence about the Village of Montgomery, Illinois' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the Village of Montgomery, Illinois' compliance with statutory requirements.

In our opinion, management's assertion that the Village of Montgomery, Illinois, complied with the aforementioned requirements for the fiscal year ended April 30, 2012, is fairly stated in all material respects.

Naperville, Illinois
August 22, 2012
