

Village of Montgomery Parkway Tree Cost Share Program

The Parkway Tree Cost Share Program is offered to Village of Montgomery residents. We will make the program trees a priority for replanting. These trees are for parkway planting only.

The village arborist will evaluate the site to be sure it is suitable for planting. Site restrictions include but are not limited to the proximity to corners, signs, street lights, crosswalks, fire hydrants, utilities or other trees. It is possible the tree will not be replaced due to these restrictions. To ensure species diversity in our urban forest the arborist will work with participants to select a suitable tree replacement for the site.

Residents are encouraged to provide additional watering to ensure the proper establishment of the tree. To improve the ease of establishment, the trees planted will be 2-2.5" in caliper and mulched with 2-3" of hardwood mulch. Trees have no replacement guarantee.

Funding for this program and all Village tree planting is limited and participation is on a first come first served basis. The current cost of participation for the home owner is \$150.00 per tree. Payment must be received with the application.

Please contact the Public Works Department at (630) 896-9241 with additional questions.

Please mail the completed form with payment to the Village of Montgomery, Tree Cost Share Program, 200 N. River St., Montgomery, IL 60538; checks should be made payable to The Village of Montgomery.
